REVEALED: HOW SUPER AFFILIATES MAKE MORE SALES THAN ANYONE ELSE... AND HOW TO JOIN THEM!

TRAINING COURSE FOR AFFILIATE MARKETERS

**Super Affiliates Focus**

You can't scatter your efforts out across a bunch of niches or even products all at once if you want to dominate any one of them. Super affiliates focus on getting one component up and running before adding another niche, sales funnel or other activity.

Also remember that every hour you've set aside for working isn't work being spent doing actual work. Endlessly watching YouTube videos isn't work. Reading forums (even if they are business forums) isn't work if you do it mindlessly for hours.

Work is defined as anything that takes you one step closer to achieving your goals. This could be:

- Writing an ad.
- Creating a new autoresponder series.
- Reading a product you're thinking about promoting.
- Guest blogging.
- Working on your Facebook Page.
- Creating a new lead magnet.
- Researching your market.

... and so on.

Which brings us to the next point...

**Super Affiliates Make a Plan**

A lot of aspiring affiliates do whatever they feel like doing on any particular day. That's a mistake, a quick path to failure.

Instead, do what the super affiliates do. They make a business plan, and then use that plan to create their daily, weekly and monthly to-do lists.

There's not an online business on the planet who couldn't benefit from having more targeted traffic coming to their site. But the problem is, most business owners – especially those new to online marketing – don't know how to get traffic.

Sure, there are a lot of guides floating around the web. You can't hardly click your mouse without running into a blog, forum, or Facebook group offering online marketing advice.

But here's the problem...

A lot of this advice is pure garbage.

Some of it is so outdated it belongs in the era of dial-up internet. Worse yet, this stuff keeps getting repackaged and sold as something bright, shiny and new... even though it doesn't work.

Then there's the garbage being spread around like manure on forums and in YouTube videos. These guys have no experience and have never made a dime online, yet they're posing as traffic experts.

You know why? Because you can be anyone you want to be when you sit behind an anonymous name and a keyboard.

So forget about all that junk.

If you want to get real traffic using super-effective methods, then you need to get the freshest information straight from two of the net's top marketers.

Where can you get it?
